PROFILE

A dynamic, hands-on, detail-oriented, and highly analytical IT professional with over 13 years of IT experience. In my first 7 years of professional experience, I worked as a webmaster and in the last five, I have worked as a Java developer. I know Micro Services, CI/CD, Cloud Computing, agile methodologies, project management, change control, project life cycles, data collection, and code documentation. Solid reputation for diligence in project accuracy and improving end-user functionality. Having worked on different projects has helped me to adapt to changes quickly and has made me a mature team worker. I can work well both in a team environment and using my initiative. I can work well under pressure and meet strict deadlines.
